EXPERIENCE

2+ yrs full-time

Software Engineer & Release Manager

► [Play Store](#) · [App Store](#)

Tap Health, Gurgaon

Jan 2025 – Present

- Shipped **40+ releases** on iOS and Android, and own both store pipelines
- Upgraded **React Native 0.68 → 0.80** and migrated native modules from Java and Objective-C to Kotlin and Swift
- Built and maintain **CI/CD** pipelines and automated workflows that power every release
- Wrote **80+ custom pre-commit and post-commit rules** that gate every PR merge through CI validation
- Drove **10+ features end to end**: PRD, prototype, task breakdown, team alignment, and delivery to production

React Native Developer

► [Play Store](#) · [App Store](#)

Reeltor, Delhi

May 2024 – Jan 2025

- Implemented **140+ screens** from scratch and extended **90+ existing screens** in a shared React Native codebase
- Built an **infinite-scroll** reels feed with windowed playback, preloading, and player recycling for low memory usage.
- Integrated the **OLA Maps** native SDK and APIs for rendering map tiles and location search
- Built real-time buyer-seller **messaging** over **WebSocket**, Reanimated **animations**, and **deep linking**
